

# Network Applications - Course Outline

## NWEN 243: 2013 Trimester 2

This document sets out the workload and assessment requirements for NWEN 243. It also provides contact information for staff involved in the course. If the contents of this document are altered during the course, you will be advised of the change by an announcement in lectures and/or on the course web site. A printed copy of this document is held in the School Office.

This course introduces protocols and algorithms for networked and distributed systems. Specific emphasis will be placed on security, application layer protocols, and distributed algorithms.

Topics will include:

1. Introduction to Networking, Lans, Protocols, the protocol Stack.
2. TCP/IP and the socket API
3. Models of Networked Applications.
4. Media and Application requirements for Networked applications.
5. A little security, Public Key Cryptography, Authentication and Digital Signatures.
6. Application layer case studies: including the Domain Name System (DNS) and Hypertext Transport Protocol (HTTP)
7. Webservices, SOAP, REST.

### Objectives

Network Applications is part of the Engineering program at Victoria University of Wellington. BE graduates are expected to exhibit a number of graduate attributes at the completion of the program. This course contributes to the graduate attributes (GA) as indicated below. The course is practically oriented, and therefore contains a significant weighting towards the practical elements of the coursework.

A full table of these attributes is available at [Graduate Attributes](#).

By the end of the course, students should be able to:

1. Explain the basics of networks and the design of their associated protocols (GA [3\(a\)](#), [3\(b\)](#), [3\(d\)](#), [3\(e\)](#), [3\(f\)](#))
2. Explain how networks are utilized for various roles (GA [3\(a\)](#), [3\(b\)](#), [3\(d\)](#), [3\(e\)](#), [3\(f\)](#)).
3. Explain the role of the application layer, the socket API and the basics of building networked or distributed applications and the design of their associated protocols (GA [3\(a\)](#), [3\(b\)](#), [3\(d\)](#), [3\(e\)](#), [3\(f\)](#)).
4. Implement applications that make use of the Socket API, Webservices (SOAP and REST), and Networked Applications (Android).

### Textbook

There is no official text book. However, we recommend the two following

- Computer Networking, Kurose and Ross, Addison Wesley, 6th Ed (This is the NWEN302 textbook).

and the following free online resources:

- Computer Networking : Principles, Protocols and Practice, <http://cnp3book.info.ucl.ac.be/>, Olivier Bonaventure, Universite catholique de Louvain.
- Android Developer Guide ( <http://developer.android.com/guide/index.html>)

### Lectures, Tutorials, Laboratories, and Practical work

A [schedule](#) of lecture topics, readings, and assignment due dates is available online

Lectures for NWEN 243 are:

From/To	Days	Time	Building [Campus]	Room
15 Jul – 20 Oct 2013	Mon	1310 - 1400	Hunter [ <a href="#">Kelburn</a> ]	LT323
15 Jul – 20 Oct 2013	Tue	1310 - 1400	Hugh Mackenzie [ <a href="#">Kelburn</a> ]	LT206

## Timetable for tutorials

From/To	Days	Time	Building [Campus]	Room
15 Jul – 20 Oct 2013	Fri	1310 - 1400	Hugh Mackenzie [Kelburn]	LT002

## Timetable for labs

All labs will be held in Co246 and start in week 3, you will need to sign up using <http://signups.victoria.ac.nz/>

Lab group	Day	time
1	Tue	9 -11
2	Wed	12-14
3	Thu	13-15
4	Thu	15-17
5	Fri	11-1

## Workload

---

In order to maintain satisfactory progress in NWEN 243, you should plan to spend an average of at least *hours* hours per week on this paper. A plausible and approximate breakdown for these hours would be:

- Lectures and tutorials: 3
- Laboratory: 2
- Assignments and practical work: 5

## School of Engineering and Computer Science

---

The School office is located on level three of the Cotton Building ([Cotton 358](#)).

The notice board for NWEN 243 is located on the second floor of the Cotton Building.

## Staff

---

The course organiser for NWEN 243 is [First Last](#). The lecturers for the course are [Supply Name](#) and [Supply Name 2](#). Their contact details are:

- [Kris Bubendorfer](#) (coordinator)
- [Cotton 338](#)
- +64 4 463 5045
- [kris.bubendorfer@ecs.vuw.ac.nz](mailto:kris.bubendorfer@ecs.vuw.ac.nz)
  
- [Aaron Chen](#)
- [Cotton 330](#)
- +64 4 463 5114
- [aaron.chen@ecs.vuw.ac.nz](mailto:aaron.chen@ecs.vuw.ac.nz)

## Announcements and Communication

---

The main means of communication outside of lectures will be the NWEN 243 web area at [http://ecs.victoria.ac.nz/Courses/NWEN243\\_2013T2/](http://ecs.victoria.ac.nz/Courses/NWEN243_2013T2/). There you will find, among other things, this document, the [lecture schedule](#) and [assignment handouts](#), and the [NWEN 243 Forum](#). The forum is a web-based bulletin board system. Questions and comments can be posted to the forum, and staff will read these posts and frequently respond to them.

## Assessment

---

Your grade for NWEN 243 will be determined based on the following assessment weightings:

Item	Weight
Labs	40%
Assignments	10%
Final Examination	50%

Late submissions will be penalised at a rate of 10% per day, and will not be accepted more than five days after the due date. Late submissions will be accepted by prior arrangement with the course coordinator for valid reasons such as medical (doctors note required) and family emergencies.

**Note:** Bachelor of Engineering students should be aware that copies of their assessed work may be retained for inspection by accreditation panel.

## Tests and Exams

---

The [timetable for final examinations](#) will be available from the University web site and will be posted on a notice board outside the faculty office. The final examination will be three hours long. No computers, electronic calculators or similar device will be allowed in the final examination. Paper non-English to English dictionaries will be permitted. The examination period for trimester 2 is 25 October - 16 November.

## Plagiarism

---

### Working Together and Plagiarism

We encourage you to discuss the principles of the course and assignments with other students, to help and seek help with programming details, problems involving the lab machines. However, any work you hand in must be your own work.

The [School policy on Plagiarism](#) (claiming other people's work as your own) is available from the course home page. Please read it. We will penalise anyone we find plagiarising, whether from students currently doing the course, or from other sources. Students who knowingly allow other students to copy their work may also be penalised. If you have had help from someone else (other than a tutor), it is always safe to state the help that you got. For example, if you had help from someone else in writing a component of your code, it is not plagiarism as long as you state (eg, as a comment in the code) who helped you in writing the method.

## Mandatory Requirements

---

1. You must achieve at least a D grade in the final examination.
2. You must attempt all projects.

## Passing NWEN 243

---

To pass NWEN 243, a student must satisfy mandatory requirements and gain at least a **C** grade overall.

## Withdrawal

---

The last date for withdrawal from NWEN 243 with entitlement to a refund of tuition fees is Friday 26 July 2013. The last date for withdrawal without being regarded as having failed the course is Friday 27 September 2013 -- though later withdrawals may be approved by the Dean in special circumstances.

## Rules & Policies

---

Find key dates, explanations of grades and other useful information at <http://www.victoria.ac.nz/home/study>.

Find out about academic progress and restricted enrolment at <http://www.victoria.ac.nz/home/study/academic-progress>.

The University's statutes and policies are available at <http://www.victoria.ac.nz/home/about/policy>, except qualification statutes, which are available via the Calendar webpage at <http://www.victoria.ac.nz/home/study/calendar> (See Section C).

Further information about the University's academic processes can be found on the website of the Assistant Vice-Chancellor (Academic) at <http://www.victoria.ac.nz/home/about/avcacademic>

All students are expected to be familiar with the following regulations and policies, which are available from the school web site:

[Grievances](#)

[Student and Staff Conduct](#)

[Meeting the Needs of Students with Disabilities](#)

[Student Support](#)

[Academic Integrity and Plagiarism](#)

[Dates and Deadlines including Withdrawal dates](#)

[School Laboratory Hours and Rules](#)

[Printing Allocations](#)

[Expectations of Students in ECS courses](#)

The School of Engineering and Computer Science strives to anticipate all problems associated with its courses, laboratories and equipment. We hope you will find that your courses meet your expectations of a quality learning experience.

If you think we have overlooked something or would like to make a suggestion feel free to talk to your course organiser

or lecturer.
