

# COMP304 (2018) - Programming Languages

## Prescription

This course addresses the principles of programming language design and use. It introduces different models of computation and the programming languages based on them, particularly functional programming and logic programming. It then examines a range of underlying issues in programming languages, such as semantics of programming languages, type systems, and control in programming languages.

## Course learning objectives

Students who pass this course will be able to:

1. understand and describe the underlying principles of a variety of programming languages.
2. read, design and write programs in a functional programming language.
3. read, design and write programs in a logic programming language.
4. understand the various advantages and disadvantages of the imperative, functional, and logic paradigms.

## Course content

COMP 304 will broaden your knowledge about programming languages by introducing you to functional and logic programming. These programming paradigms are very different from the imperative underpinning of the programming languages discussed at levels 100 and 200. Understanding these paradigms and their associated programming techniques and idiomatic usages will not only put you into a better position to evaluate language designs but also will allow you to use a number of these techniques in conventional programming languages. COMP 304 also looks at the history of programming languages, enabling you to place the discussed programming languages into their respective context and thus obtain a broader perspective.

## Withdrawal from Course

Withdrawal dates and process:

<https://www.victoria.ac.nz/students/study/course-additions-withdrawals>

## Lecturers

---

**Thomas Kuehne** (Coordinator)

thomas.kuehne@vuw.ac.nz 04 4635443

233 Cotton, Kelburn

---

**Lindsay Groves**

Lindsay.Groves@vuw.ac.nz 04 4635656

257 Cotton, Kelburn

## Teaching Format

## Student feedback

Student feedback on University courses may be found at:  
[www.cad.vuw.ac.nz/feedback/feedback\\_display.php](http://www.cad.vuw.ac.nz/feedback/feedback_display.php)

## Dates (trimester, teaching & break dates)

- Teaching: 05 March 2018 - 08 June 2018
- Break: 23 April 2018 - 27 April 2018
- Study period: 11 June 2018 - 14 June 2018
- Exam period: 15 June 2018 - 04 July 2018

## Class Times and Room Numbers

### 05 March 2018 - 25 March 2018

- **Friday** 10:00 - 10:50 – 306, 77 Fairlie Tce, Kelburn

### 05 March 2018 - 01 April 2018

- **Monday** 10:00 - 10:50 – 306, 77 Fairlie Tce, Kelburn
- **Tuesday** 10:00 - 10:50 – 306, 77 Fairlie Tce, Kelburn

### 02 April 2018 - 22 April 2018

- **Friday** 10:00 - 10:50 – 306, 77 Fairlie Tce, Kelburn

### 09 April 2018 - 22 April 2018

- **Monday** 10:00 - 10:50 – 306, 77 Fairlie Tce, Kelburn
- **Tuesday** 10:00 - 10:50 – 306, 77 Fairlie Tce, Kelburn

### 30 April 2018 - 10 June 2018

- **Monday** 10:00 - 10:50 – 306, 77 Fairlie Tce, Kelburn
- **Tuesday** 10:00 - 10:50 – 306, 77 Fairlie Tce, Kelburn
- **Friday** 10:00 - 10:50 – 306, 77 Fairlie Tce, Kelburn

## Other Classes

There are weekly tutorials. No labs.

## Set Texts and Recommended Readings

### Required

There is no set text for the course.

### Recommended

Recommended readings will be provided in lectures and via the course web site.

## Mandatory Course Requirements

In addition to achieving an overall pass mark of at least 50%, students must:

- Gain at least a **D** grade in the final exam.

*If you believe that exceptional circumstances may prevent you from meeting the mandatory course requirements, contact the Course Coordinator for advice as soon as possible.*

## Assessment

This course will be assessed through assignments and final examination.

Five Marked Assignments	23 March, 13 April, 4 May, 18 May, 1 June	CLO: 1,2,3,4	40%
Final Examination (2 hours)		CLO: 1,2,3,4	60%

## Penalties

You have a total of three "slip days" which you may use for any number of late submissions during the course. There will be no penalty applied as long as the sum of delays does not exceed three days. You do not need to apply for the use of slip days; any slip days you have left will be automatically applied to assignments that you submit late. The slip days are intended to cover minor illnesses or other personal reasons for being late. You should only ask for extensions in the case of more significant or longer lasting problems (in which case you may need documentation). Once all slip days have been used, no marks will be awarded for any further late submissions.

## Extensions

Individual extensions will only be granted in exceptional personal circumstances, and should be negotiated with the course coordinator before the deadline whenever possible. Documentation (eg, medical certificate) may be required.

## Submission & Return

All work is submitted through the ECS submission system, accessible through the course web pages. Marks and comments will be returned through the ECS marking system, also available through the course web pages.

## Marking Criteria

Assignments will be marked on the basis of correctness and style of code, and of understanding demonstrated of the techniques and principles covered in the course.

## Workload

In order to maintain satisfactory progress in COMP 304, you should plan to spend an average of 10 hours per week on this paper. An approximate breakdown for these hours is:

Lectures, tutorials and laboratories - 3 hrs  
Readings, revision and preparation - 2 hours  
Assignments - 5 hours

## Teaching Plan

See [https://ecs.victoria.ac.nz/Courses/COMP304\\_2018T1/LectureSchedule](https://ecs.victoria.ac.nz/Courses/COMP304_2018T1/LectureSchedule)

## Communication of Additional Information

All online material for this course can be accessed at [https://ecs.victoria.ac.nz/Courses/COMP304\\_2018T1](https://ecs.victoria.ac.nz/Courses/COMP304_2018T1)
