

Prescription

The course introduces the fundamentals of engineering statistics. Topics include probability mass and density functions, random variables and functions of random variables, confidence intervals, statistical tests, and regression, as applied to engineering problems.

Course learning objectives

Students who pass this course should be able to:

1. Identify random variables and use them to model observations in engineering applications.
2. Apply statistical tests to and compute confidence intervals for observed data.
3. Identify relationships between sets of data using linear regression.
4. Use the Matlab programming language to solve problems in statistics encountered by engineers.
5. To select an appropriate standard family of probability mass or density functions, and estimate its parameters.

Required

To be able to follow the course the student will need the textbook cited below.

- W. Navidi, *Statistics for Engineers and Scientists*. Mcgraw-Hill.

Mandatory Course Requirements

In addition to achieving an overall pass mark of at least 50%, students must:

- achieve a passing grade in at least four lab reports.
- achieve a grade of at least 40% in the final exam.

If you believe that exceptional circumstances may prevent you from meeting the mandatory course requirements, contact the Course Coordinator for advice as soon as possible.

Assessment

The course will have weekly assignments, half of the assignments are graded.

Assessment Item	Due Date or Test Date	CLO(s)	Percentage

Assignments (weekly)		CLO: 1,2,3,4	15%
Labs (5)		CLO: 1,3,4	15%
Final examination (2 hours)		CLO: 1,2,3	45%

Penalties

No credit for assignments handed in after the solutions are posted.

Extensions

Individual extensions will only be granted in exceptional personal circumstances, and should be negotiated with the course coordinator before the deadline whenever possible. Documentation (eg, medical certificate) may be required.

Workload

A typical workload is three hours for lectures, three hours for reading, and four hours for assignments and labs.
